

FLU CLINICS

From September 19th the Surgery will be in the position to offer the SEASONAL FLU vaccinations to patients aged over 65 and those eligible under 65, carers and children aged 2-3 years. Please contact the practice for further information. The clinics will be limited and run differently this year and we ask that patients make every effort to attend. The Seasonal Influenza vaccination does not include protection against Coronavirus.

Remember: - Keep a safe distance, Wash hands regularly, Wear masks where required and above all use Common Sense
